President's Notes

Rick Bugbee

I think we can call this back to NORMAL!!! Our June meeting will be at the school in person. Most members by then will have been vaccinated so this will be mask optional. A Zoom link will also be sent out if you are still not ready for in person. We will start with a learn to turn at 6pm followed by a Zoom Demo from ART. I'm told they will be showing how to make segmented travel mugs (hot and cold I think.) After the Zoom we will do show and tell and a brief meeting.

We are adding a new twist to the learn to turn hour with a tool review. Have you purchased a new tool or just have a favorite you would like to show us and let us try it out?? I will bring in my hollowing set I got from Trent Bosch that you can take for a road test. I, like many of us have spent tons of money on tools that are seen during youtube and demos, some good, some not so good. This will be a good time to share the good from the bad.

Set your calendar for July 15th we have a special guest (via Zoom) John Jordon he will be demonstrating his method of live edge bowls. This will be zoom and in person at the school.

I would like to do a best finish review for our August meeting. Looking for a few members to share their best finish with a 15 minute how to and why. Hoping for 4 members to step up for this.

The Wood Workers Guild will be building a Moravian Style work bench for the classroom. This will be a how-to class spread over a series of nights. They will be starting from rough sawn ash for this build. If anyone needs more info or would like to attend give me a call or email

- **Demos are needed for September and October!** They can be done from your shop and or at the school with Mike and I to do the Zoom part. Please and Thank You
